ASSA ABLOY

Experience a safer  
and more open world

Appealing to homeowners and architects alike, CREST™ sliding door handles offer an attractive and contemporary appearance to enhance any sliding patio door.

CREST™ 300

CREST™ 200

The large, comfortable grip is ergonomically crafted to maximize performance and minimize effort while the clean, narrow aesthetics allow for unobscured sight lines. Available in various configurations, CREST™ sliding door handles provide a sleek design element to a variety of sliding doors.

### Features

- Two sizes to match the proportions of standard height doors and taller doors
- For use in single and multi-panel applications
- Designed to fit Interlock's SBML locking system
- Durable Zamak material
- Available in powder coat and architectural finishes
